Following a dispute between two itulians over a girl, there was a frecfor-all fight on a Coney Island trolley car bound for New York early to-day, and when the smoke cleared four men had been shot, and at least two and probably three were seriously injured.

The car, which was of the Smith Company, New Yor street line, had reached Avenue H and (Special Cable Desputch World.)

Several shots rang out. At the first Vincenzo Carere, of No. 225 Johnson street, Brooklyn, pressed his hand to street. Brooklyn, pressed his hand to street. Brooklyn began to be supposed by the street of coole and extended far down the mountainty of the street.

Lagoure. John Lake, James Sarrenti and Louis Bort.

The streets are filled with thousands of poverty-stricken present, and his companions were taken to the station-house.

Simonello appeared to be badly hurt, and was sent to Kings County Hospital. An ambulance surgeon dressed Nataro's hand and he went home.

Carere appeared to be in a very serbous condition. While the police were awaking the arrival of an ambulance to take him off to the hospital an automobile drew up.

The streets are filled with thousands of poverty-stricken.

Evidence that others before us had from that side of the mountain was a condition is awful.

The first soul I met was a Genauteman begging alms, his head in a bandage, and streams of blood from his wounds mixing with the ashes that covered his clothing. He was a total to us and drove us back toward the country impassable beyond the road.

to take him off to the hospital an automobile drew up.

The chauffeur recognized Carere, and offered to take him to the hospital. The police agreed, and the injured man was whirled away in the direction of Brooklyn. It was evidently the intention of his triends to carry him off, but his wound was so serious they had to stop at the Park Circle and call for a Seney Hospital ambulance.

After his wounds had been dressed, Carere linsisted on leaving. Later the police learned that he and Simonellic were the leaders in the fight. Now they are seeking Carere and blanning the highway, which in many places was covered to a depth of three feet. There were great drifts as of snow

# ECZEMA SKIN RAW AND FEVERISH-Eczema is a tormenting, stub-orn disease caused by an acid humor

in the blood coming in contact with the skin and producing redness, in dammation and almost intolerable itching. An inactive state of the system and sluggish condition of the eliminative members leaves the waste and refuse matter of the body to collect and sour instead of passing them off through nature's channels of bodily waste. The blood in its efforts to purge the system of all foreign matter absorbs this acid and throws it off hrough the pores and glands of the skin. The acrid humor seems to coze out and set the skin on fire, the straw colored, sticky fluid drying and forming crusts, and the itching is intense. When these pustules are scratched off the skin is left raw and feverish and often a solid sore is formed and kept up by the constant escape of acids from the blood. Local applications of salves, powders, lotions etc. are desirable and should be used because they allay the itching and give the sufferer temporary comfort, but are in no sense curative, because they cannot reach the seat of the trouble, which is in the blood. S. S. S. goes down into the blood, cleanses the cir-

culation of all acids and humors, builds up the thin, sour blood and by removing every vestige of the cause cures Eczema perma-PURELY VEGETABLE. nently. The irritating eruptions disappear, the itching and burning cease, and the

acid-fired skin, being fed by a fresh, cooling stream of blood, becomes soft and smooth again. S. S. S. is made of healing, purifying roots, herbs and barks that will not damage any part of the system. Book on skin diseases and any medical advice free.
